

### **Craig's Corner**

For many people, creating a budget sounds like an overwhelming, dull or downright scary task. But maintaining a budget is an essential part of managing your wealth, achieving your financial goals and planning for the future you want. Here are some tips to help you get started gradually.

- Pay Yourself First/Budget for Emergencies. This is important. When you get a paycheck, set a small percentage aside in a savings account. Do this faithfully each month, and before you know it, you'll be ready with the money you need when life happens.
- Track your spending. This sounds like a lot of work, but you can simply sort your purchases into a few general categories like groceries, restaurants and entertainment, transportation expenses, housing expenses, and other bills. You can use your e-statement transaction history, an excel spreadsheet, a notebook, or a receipt holder to help you sort and keep track.
- Evaluate your spending. Once you've tracked a few months of spending, look for trends and large amounts of money. Where does your money go each month? Often, people are surprised to see just how much money goes to entertainment or restaurant food. If you want to spend less, take note of some areas you think you could cut back on, and set yourself a limit in those areas. There are great budget tracking apps for your smartphone!
- Budget for your goals. Each pay period, set aside a small amount or percentage of your check into a savings account specifically for your goals. A down payment on a house, tuition for your child, a vacation... You'll be surprised at how guickly your monthly contributions add up, even if they are small! You might not even notice \$25 or \$50 from your monthly budget, but soon you'll have a few hundred dollars toward your goal! You can set up transfers online for fast and easy results! Plus, we have vacation club accounts that earn interest while helping you save for your vacation. And don't forget about our IRAs (Individual Retirement Accounts).
- Check back. Once a year, take a look at your accounts and your spending. Are you still on track? Have your needs or your income changed? Adjust your budget to reflect your current goals. Be honest about your spending needs vs. your spending wants, and let your budget help you make positive changes.

### **ATM Safety Tips**

Automated teller machines (ATMs) provide a fast and convenient way for you to access your credit union savings, checking and line-of-credit any time of the day or night. Here are some common sense safety guidelines and suggestions to keep in mind to help protect you and your accounts when using an ATM.

#### VISA Check Card/ATM Card Security

- Treat your card like cash. Always keep your card in a safe place.
- Keep your personal identification number (PIN) a secret. Memorize it. Never write your PIN on your card or store it near your card. Never tell your PIN to anyone or allow anyone to enter your PIN for you.
- Never give out information about your PIN over the telephone. Your credit union will never ask you for your PIN.
- If your card is lost or stolen, or you think someone may know your PIN, report it immediately to Houston Highway Credit Union.
- Never leave your receipt or discard it at the ATM.
- Check your receipts against your monthly statements to guard against ATM fraud.

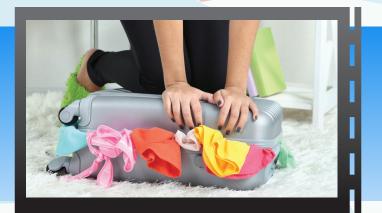

Search Houston Highway Credit Union and "Like" us on Facebook for updates, ws, events and giveaways!

#### Personal Security at ATMs

- After dark, only use ATMs that are well-lighted with minimal landscaping.
- Always look around before conducting a transaction. If you see anyone or anything suspicious, cancel your transaction and leave the area at once.
- Have your card ready before you approach the ATM in order to minimize time.
- When using a walk-up ATM, park as close as you can to the machine. If there are other people at the ATM you want to use, remain in your car with the doors locked and windows up until they leave. Do not leave your car running or the keys in the ignition as you walk up to the ATM. Use your body to block the view of your transaction, especially as you enter your PIN and take your cash and card. As you return to your car after the transaction, have your car keys ready and check around and under your vehicle.
- When using a drive-up ATM, keep your doors locked and windows up until you are ready to use the machine. While waiting in line for the ATM, always leave enough room between your vehicle and the one in front of you for a quick exit should it become necessary. Keep cash, checks or moneybags out of sight until you are ready for your transaction.
- If you are followed after using an ATM, seek a place where people, activity and security can be found. If necessary, call the police.
