CYBERSECURITY AWARENESS

Helping our members protect their accounts and personal information is a top priority at HHCU. Stay in the know with these tips on how to stay safe and secure online.

Enable Multi-Factor Authentication

This helps mitigate security failure by requiring multiple forms of identification beyond a simple password. This way, even if your password leaks, a second or third form of authentication is required to gain access.

Beware of Phishing Scams

If you receive an email from an unknown sender with suspicious links or attachments, do not respond or click on anything in the email. This could be a cybercriminal attempting to collect your personal information.

Stay Up to Date

Keep software updated to the latest versions and set security software to run regular scans.

Use Strong Passwords

Don't use the same password for multiple sites; always use a unique mix of upper and lower-case letters, numbers, and symbols.

IF YOU THINK YOU'VE EXPERIENCED FRAUD, CONTACT HHCU AT 713-864-4438.
