HOLIDAY SCAMS TO AVOID

The holiday season is a prime time for scammers to attempt to steal your personal information. Be aware and cautious about these trending holiday scams and remember that HHCU will never ask for your digital banking user ID or password. Do not share personal information with unsolicited callers or texters that are claiming to be Houston Highway Credit Union. If you are uncertain, hang up and call us directly at 713-864-4438.

Package Delivery Scams

A popular scam that involves receiving a phone call or text message that asks you to click on a link, usually to confirm your package delivery date, receive an update about tracking information, or provide delivery instructions.

Gift Card Scams

Gift card scams consist of receiving a phony email or text message that appears to be from someone you know, such as the executive of your company, requesting that you purchase multiple gift cards for a work-related event. It can also look as if it's coming from a personal contact, such as a relative or friend who claims to need help with ordering gift cards.

Social Media Scams

Beware of fake promotions and contests that promise a gift card or voucher in exchange for completing an online survey. The survey is not legitimate and is merely an attempt to get you to click on a harmful link which then exposes your personal information.
